SUMMARY

Computer Science undergraduate skilled in frontend development and problem-solving. Strong in Java, JavaScript, Python, and data structures with interest in building scalable applications.

EDUCATION

Galgotias University <i>B.Tech in Computer Science</i>	CGPA: 6.89 2023 – 2027
SBV NO. 1, C Block, Yamuna Vihar, Delhi <i>CBSE (Class XII)</i>	65% 2021 – 2023
Sarvada Modern Sec. School <i>CBSE (Class X)</i>	69% 2020 – 2021

SKILLS

- **Programming Languages:** Python, Java, JavaScript, SQL
- **Web Technologies & Frameworks:** HTML, CSS
- **Data Analysis & Visualization:** Pandas, NumPy, Power BI
- **Cloud & Deployment Platforms:** Vercel
- **Dev Tools:** Cisco Packet, Kaggle, SolidWorks
- **Soft Skills:** Teamwork, Adaptability, Problem Solving

PROJECT

Pixelicons	Nov 2025
• Developed a responsive web application for browsing and downloading custom Windows folder icons using HTML, CSS, and JavaScript. • Implemented client-side file download functionality and optimized UI for smooth user experience and fast asset access. • Designed and organized reusable asset structure with scalable frontend architecture, enabling easy addition of new icon categories and features.	
AI Resume Analyzer	Mar 2026
• Developed an AI-powered Resume Analyzer using Python, Streamlit, and NLP techniques to extract resume data, analyze skills, and predict suitable job roles. • Implemented keyword matching, resume scoring, and recommendation features to provide skill suggestions, resume tips, and ATS optimization insights. • Integrated data visualization and admin analytics modules for tracking user activity, resume trends, and downloadable structured reports.	

INTERNSHIP

AICTE Google: AI-ML — Intern	Jul 2025 – Sep 2025
• Learned core concepts of AI/ML, data preprocessing, model training, and evaluation techniques. • Gained hands-on experience with Python, ML libraries, and real-world datasets to build predictive models. • Designed, trained, and deployed different machine learning models for practical use cases.	

CERTIFICATIONS

- Cloud Innovation Challenge 2025
- Gen AI Exchange Hackathon 2025 by Google Cloud

ACHIEVEMENTS

- Solved 1000+ DSA problems across LeetCode, CodeChef, HackerRank and GFG
- Ios App Development BootCamp
